

Recreation, Sport and Tourism (RST) - Course work at a glance

As a student in the Recreation, Sport and Tourism major, you will have an opportunity to participate in a variety of experiences, including working with community groups, studying abroad, contributing to the work of professional organizations, and participating with faculty in cutting-edge research. All students complete an internship, generating valuable work and personal growth.

The curriculum is rooted in several disciplines including psychology, sociology, business administration, and human development. In addition, the faculty is widely recognized for their leadership, research, professional contributions, and excellence in teaching.
